```
public class WrapperObject extends Decorator {
        public WrapperObject(BasicObject c) {
                super(c);
        }

        @Override
        public void assemble() {
                super.assemble();
                System.out.print(" Adding Wrapper features");
        }
}
```
